Text: Freund, John E. Modern Elementary Statistics.  
Lecture Time and Location: Monday, Wednesday, 8–9:15, Silver 706  
Office Hours: Monday 9:30–10:30, Tuesday 1–2.  
Subject material: Freund, Chapters 1–13, with supplementary material if time exists.  
Grading:  
The course grade will consist of three midterms, homework, and a final. Each of the midterms will be worth 20%, the final worth 30%, and the total homework score worth 10%.  
The dates of the midterms are currently scheduled as February 12, March 7, and April 4. These exams will be in-class, during the regular class period. The final will take place on May 7 from 8:00am to 9:30am – location to be determined.  
Homework will be assigned and collected regularly. Each homework assignment will consist of somewhere between ten and twenty exercises. I will choose two of these at random to grade, and the grade on those two will determine the homework score for the assignment.
