   Instructor is excellent. Very clear. Makes class enjoyable. I have a true grasp of Calc after taking this course.

   Great class. Instructor was great with answering questions

   The grading was disheartening because no matter how much I studied, I'd forget one thing and would consequently get a C. I don't mean to complain about my grades but rather to suggest a system that's slightly more balanced because eventually I gave up and started putting in C amount of effort.

   Best undergraduate math teacher I have had. Much better than others.

   Very good instructor, very thorough in teaching

   Very helpful if you don't understand

   The instructor was very available to meet with the students and he presented the material well.

This is a hard class, and I don't think that highly of the lecture teacher, but Fabio really tries to help and I respect that. It's not easy.

Very helpful and patient.

Great class, good instructor.

I think he is a very good instructor.

Very helpful and explains concepts well.

Always available, very clear in recitation.

Very patient, helpful, and willing to teach/give extra help or explain concepts.

I feel that the instructor knows his stuff and by going through entire problems I was able to understand the concept.

He was very good at answering our questions and helping us with whatever we didn’t understand.
Way too many problems assigned per week.
Good at explaining, but his pace is really slow.
Fabio is very helpful and clearly explains any question you ask him.
Awesome.

Good job! Very helpful! Thanks!
If it wasn’t for Fabio, I would have an F! He is the best!
The lab taught me exponentially more than the lectures.
The lab increased my understanding of the material but sometimes did not match lecture topics.
It was quite helpful having a recitation with Fabio.
Fabio made everything clear and easy to understand. I’m so lucky that I had him as my recitation leader.

Very clear directions and explanations of problems were great! Do be careful to enunciate, however, it can be hard to hear/understand you sometimes.

Need more office hours! Fabio is a fair professor, who is very helpful when I come to office hours. He should be a professor, for he’s more helpful than the professor I have.

I have no idea what my lecture teacher is talking about. The only reason I am passing this course is Fabio. He’s a great teacher, very patient and good at clarifying hard concepts.

Very clear -- simplified many of the problems.

Responds well when questions are asked.
